

Climate Action Checklist

Complete at least four of the tasks below to win a prize!

Calculate your carbon footprint

Scan the QR code to calculate your carbon footprint. What is one change you could make to lower this number?

Connect on Instagram

Explore the accounts below. Find a post that speaks to you and comment to share your thoughts.

@unclimatechange

@ouryouth4theclimate

@climate.change.communication

Listen to a climate podcast

Scan the QR code and listen to a climate-related podcast. What do you think of xeriscaping? If you had a lawn, how would you choose to take care of it?

Post about it

Post about something climate-related. Have you learned a new fact about climate change? Did you make a small change in your life to lower your carbon footprint? Let your followers know!

Stay Informed

Do some research to find out a current climate issue happening in your community. Who can help solve this issue? How is it affecting people in your community?
